

**Steve Levy  
County Executive  
H Lee Denison Building  
100 Veterans Memorial Highway  
P.O. BOX 1600  
Happaugue, NY, 11788**

**Attention Steve Levy:**

**Please approve and facilitate plans to build a Drag Racing / Motorsport facility at the Calverton - EPCAL location.**

**There are thousands of supporters / voters who are automotive enthusiasts on Long Island, and feel a regulated racing facility is a great cause for Long islanders of all ages.**

**By enabling this project to get underway there are countless benefits for Suffolk County revenues, and safe regulated street / track performance vehicles.**

**This is a cause which can be educational for the youth of Long Island, and other boroughs located in NY. However the revenue possibilities for Long Island, mainly Suffolk County are extremely profitable, especially in this economic climate.**

**The only other local state benefiting from Street / Pro Performance Racing is the great state of New Jersey.**

**We do not need any more housing developments, shopping centers, or other states benefiting from a hobby that thrives on Long Island.**

**Suffolk County needs a state regulated Drag Racing facility to help generate local jobs, revenue, and support for the thousands of long islanders restricted to local car shows, and swap meets in parking lots.**

**Thank you for your time  
in advance regarding this matter.**
